

Integrated Dental Holdings
case study

Integrated Dental Holdings Leiston

Project: IDH Leiston
Budget: £115k
Completion date: September 2009
Architect: Masonwood Architects

Integrated Dental Holdings acquired a two unit shell from a developer in Leiston. This was converted to one unit by forming a structural opening in the concrete floor and installing a purpose made staircase within the building. The works included a full new mechanical and electrical package along with a complete fit out.

How did you get Coccion Construction Limited involved in the project?

We invited Coccion to tender due to having worked with them on previous projects with the client.

What were you trying to achieve from the project?
