

Ollie & Darsh Dental surgery
case study

Ollie & Darsh Dental surgery Liverpool

Project: Ollie & Darsh Dental surgery, Liverpool
Budget: £30k
Completion date: October 2008
Comments: Daz Singh BDS.

Based in Liverpool Ollie & Darsh are a private dental practice with a difference. With a unique approach - based on personal programmes, new technologies and cosmetic procedures - they present themselves in a contemporary and stylish manner as demonstrated in their logo, which looks more like a consumer brand. This approach is reflected in the surgery itself, which has an interior you might expect from a boutique hotel or retail fashion outlet, but for the obligatory dentists chair.

How did you get Coccion Construction Limited involved in the project?
Simon Pearce from Mckillops introduced Coccion as part of our Project, specifically in designing the cabinetry in our clinical spaces.

What were you trying to achieve from the project?
We needed high quality dental furniture and cabinets of exceptional quality, incorporating a sense of our style but also

practical to use given the medical nature of what we do. Inevitably we also wanted them at an affordable price.

Were you kept up to date during the construction phase of any alterations and cost issues?

We were always kept up to date by Coccion during the fit-out itself of progress and any issues.

How was your working relationship with the construction team during the construction work phase?

In one word 'unbelievable'. We were really impressed with the dedication of the Coccion team to endeavour to get the work done to schedule, which even meant staying overnight to get it completed. So we were very, very impressed and Coccion have become very highly regarded.

Were you satisfied with project on completion?
Yes, the service and end result was outstanding.

Were you satisfied with Coccion's after care service?

Absolutely. Throughout the project and with any minor snags afterwards we've been really impressed with Coccion's service and attitude - nothing's a problem to them.

Do you have any future plans to use Coccion?

Yes in due course as we expand we'd definitely use Coccion again.
